

CEDAR SINAI PARK

robison jewish
health center

In the Month of February, RJHC received a total of 39 inquiries, 13 of which admitted to the facility (33%). Of those who chose other facilities, 18 reported 'lack of private rooms' as the reason.

We are seeing a continued increase in inquiries following the 2014 Flu, and admissions are slowly picking up. Over the next few months we will also be able to fill those beds we have been holding for the RCF Transition.
